

INDUSTRIAL FLOORING SOLUTIONS

www.ardex.com

- Specified System Solutions
- Technical Support and Training
- Global Service Network

The ARDEX Group

Family-owned and headquartered in Witten, Germany, ARDEX has been an innovation leader for speciality building products for more than 60 years. With a focus on strong, uncompromising product quality, service excellence, in-depth training and expert technical support, ARDEX ensures consistent quality and maximum responsiveness to local market needs in more than 50 countries around the globe.

Evaluating functional requirements ...

Mechanical Stress

(static and dynamic loads; abrasion)

Chemical Stress

(acids / alkalis / solvents, oils, cleaning agents)

Temperature

(heat / cold / thermal shock)

Safety

(anti-slip, conductivity, fire resistance, non VOC)

Aesthetic / Surface appearance

(flatness, texture / finish, design / color)

Comfort and Care

(ease of cleaning, hygiene / antimicrobial, fast install and repair)

... to specify your flooring system solution

3 Wearing surface

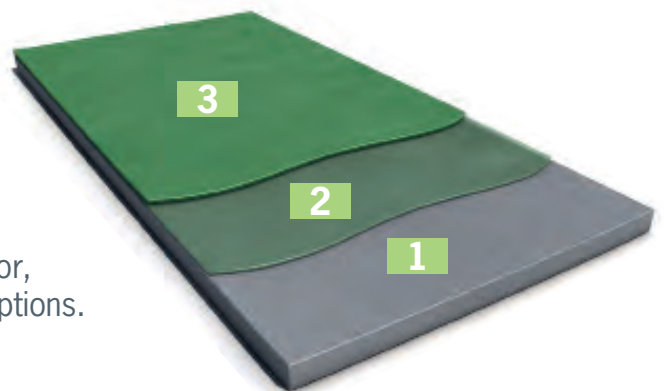

Ensuring required functional properties. See our system and technology portfolio on the next page.

2 Priming

For proper connection of wearing surface to subfloor, we also provide moisture control and waterproofing options.

1 Subfloor Preparation

Correct subfloor preparation is essential when creating long lasting flooring systems. ARDEX offers a full range of products within the Concrete Repair category.

INAPPROPRIATE Subfloor

SHOT BLASTED concrete

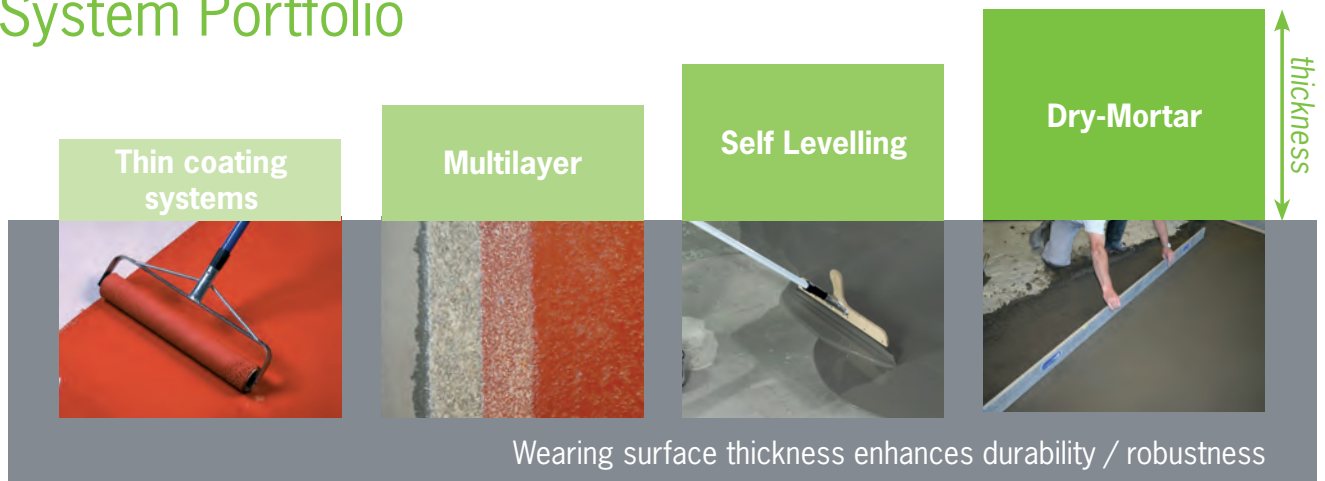

GRINDED concrete surface

Solutions for EVERY Industrial Environment

- Food and Beverage
- Parking and Transportation
- Chemical Processing
- Engineering and Manufacturing
- Education / Leisure / Office
- Electronics / Anti-Static
- Automotive and Aerospace
- Pharma and Healthcare
- Warehousing and Logistics
- Retail

System Portfolio

Technology Portfolio

ARDEX provides systems in a wide range of colors depending on individual project requirements

	Epoxy	Polyurethane	PU-Cement	Cement system	Industrial Tiling Full System layout
Impact resistance	good	very good	excellent	fair	depending on tile
Flexibility	low	excellent	low	low	depending on type of grout and joints
Temperature resistance	moderate (~55°C)	moderate (~55°C)	excellent (~120°C)	excellent (~120°C)	epoxy grout: moderate (-55°C)
Acids	good	very good	excellent	bad	epoxy grout: good
Alkalis	very good	good	excellent	very good	epoxy grout: very good
Solvents	good	low	very good	excellent	epoxy grout: good

Specialist applications	MMA	Acrylics	Polyurea	Polyaspartic
